REMINDER NOTICE: Withdrawal of certain Inter-State/Intra-State DSO Services effective February 28, 2019

Dear Valued Customer,

Account Number: 201-Z01-1641-731

Circuit ID: OSNA879210NJ

Several months ago, Verizon gave notice of our intention to withdraw certain Inter-State/ Intra-State Switched and Special Access DSO services as well as PUC Intra-LATA DSO services in offices undergoing a copper-to-fiber transition. Services include Voice Grade, Digital Data, Feature Group A, WATS Access Lines, Metallic, Program Audio, Telegraph Grade, Wideband Channels, DOVPATH, Switchway/Switched 56 and Basic Rate Interface (BRI) ISDN, with or without Centrex. State specific terminology for these services is shown on **Attachment 1**.

This letter serves as a reminder to existing subscribers that as of February 28, 2019, withdrawal of these aforementioned services is underway in the offices listed on Attachment 2.

Verizon will provide you a minimum of 90 days advance notice of the date of your service disconnection.

We urge you to take action at this time to initiate the migration of your application(s) off of these services and to alternative services or carrier in order to avoid service disruption.

We are happy to work with you to find alternative solutions. Verizon offers a variety of services that may suit your needs, including:

- *Fiber-based voice services*
- *Fios Internet Service*
- *Switched Ethernet Service*
- *Private Internet Protocol Service*
- *DS1 Service*
- *LTE or Machine-to-Machine Services through Verizon or Verizon Partner Program*
- *VOIP Services including Business Digital Voice or Virtual Communications Express*

We value your business and look forward to helping you realize the benefits that our advanced offerings can unlock for you. Please contact your Verizon Account Manager, or call Customer Service at the toll-free number shown on your invoice to initiate this process.

Sincerely,

Verizon
